iPoPP.org

## About iPoPP

For more than 30 years GlobalSchoolNet and eLanguages have been the industry leaders in content-driven collaboration and global e-learning programs. Our worldwide community consists of 120,000 educators and +4 million youth from 194 countries, who work together on local, regional and international projects.

- iPoPP helps organizations improve their productivity.
- iPoPP connects educators and youth in meaningful project-learning exchanges to develop literacy and communication skills, foster teamwork and collaboration, encourage workforce preparedness, and create multi-cultural understanding.
- iPoPP integrates collaborative tools, constructivist learning methodology, and future thinking strategies in education and career development, with strong links to leadership and project management principles.
- iPoPP provides strategic advice to NGOs, governments and corporations on how to embed collaborative working and learning to increase productivity and maximize return on investment.

## iPoPP benefits

- Provides expertise and leadership in content-driven collaboration and e-learning;
- Connects 120,000 educators from 194 countries;
- Manages global education competitions and award recognition programs;
- Implements unique evaluation, peer-review and assessment components;
- Works closely with communities, companies, and governments to deliver sustainable education programs and implement social collaboration and learning networks.

Project page

User generated content (e.g. images, videos, audio, text) can be uploaded, shared, and discussed.

Project facilitators have full administrative rights to manage participants, control project content, and report outcomes.

Variety of resource types

Admin control

*Working on common projects with partners worldwide – Providing secure students communication – Safer Internet- Connecting with colleagues for exchange of experience – Increasing the scope for non-formal education – Lifelong learning*

Maya, Arnaudova, GCHE "Egzarh Iosif I", Bangladesh

*eLanguages has been a significant factor in British Council's success in connecting teachers and classrooms around the world.*

Jim Scarth, Director Brazil, British Council

## Introducing iPoPP Collaboration Rooms

Online project environments for:

- Corporate Social Responsibility projects and Community Outreach initiatives;
- Education programs managed by a NGO, charity or foundation;
- Government programs about international development, education or cooperation;
- Corporations: social collaborative working and learning in the workplace.

## iPoPP Collaboration Rooms - online project collaboration with a global community of educators and youth

### Features

iPoPP Collaboration Rooms are secure, customizable web-based environments which allow participants to collaborate and share project outcomes. Education programs and projects facilitated within iPoPP Collaboration Rooms provide on-going interaction opportunities with a growing community of global educators, youth, professionals or thought leaders.

iPoPP Collaboration Rooms are:

- **Scalable:** Organization and user administration on global national or regional level.
- **Transferable:** Outcomes become evidence of learning and these open education resources can serve as models to inspire educators and youth to engage in future projects.
- **Customizable:** Project environments can be branded according to corporate guidelines.
- **Measurable:** Evaluation and reporting tools are provided to assess progress, learning outcomes, organization development and productivity.
- **Multilingual:** Project content can be made available in multiple languages.
- **Easily Accessible:** Tools are designed to work with all levels of bandwidth, from dial-up connections to high speed; they display nicely on all types of computers, tablets and smart phones;
- **Responsive Support:** Provided 24/7 by dedicated team
